DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on September 26, 2006 was considered by the Examiner. However, one of the references was not considered because the document number listed (i.e., PG Publication No.) was incorrect. However, during the search performed by the Examiner, the publication, now a patent, was found and it has been cited in the Notice of References cited by the Examiner with the correct document number.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

a. Claims 1 - 7 are allowable over the Prior Art of Record because it fails to teach or suggest a combination square for use with a magnetic rule-type blade having top and bottom surfaces and at least one pair of opposite long edges, the combination square comprising a magnetic housing having a leading portion with a front surface and opposite side surfaces subtending internal 90° and 135° angles with said front surface, and a blade retaining slot for releasably magnetically retaining the blade for correspondingly subtending a 90° shoulder and a 45° shoulder with said opposite side surfaces of said

magnetic housing in said top view of the combination square laid flat on a planar support surface in combination with the remaining limitations of the claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
